Plotting HOBO data

1. These plots look at air temperatures for each month, each year between warmed and ambient plots - There's probably a better way to present this

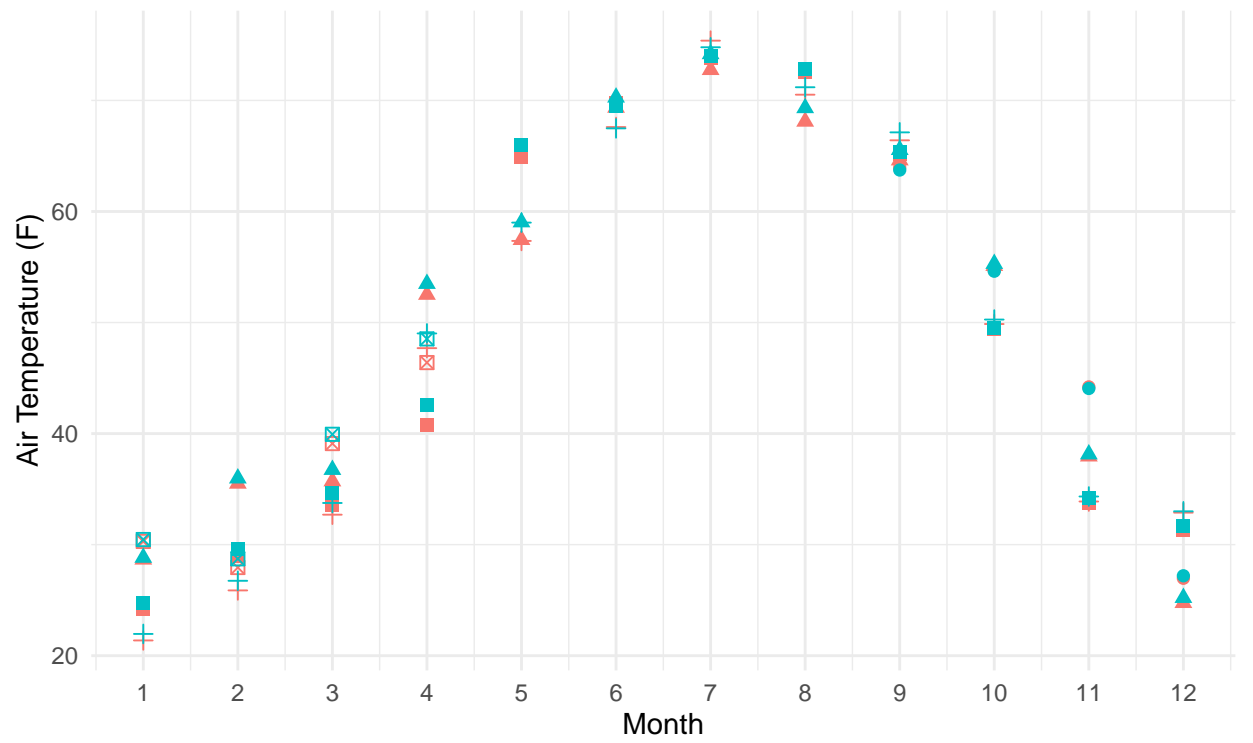

1H sensor

2H sensor

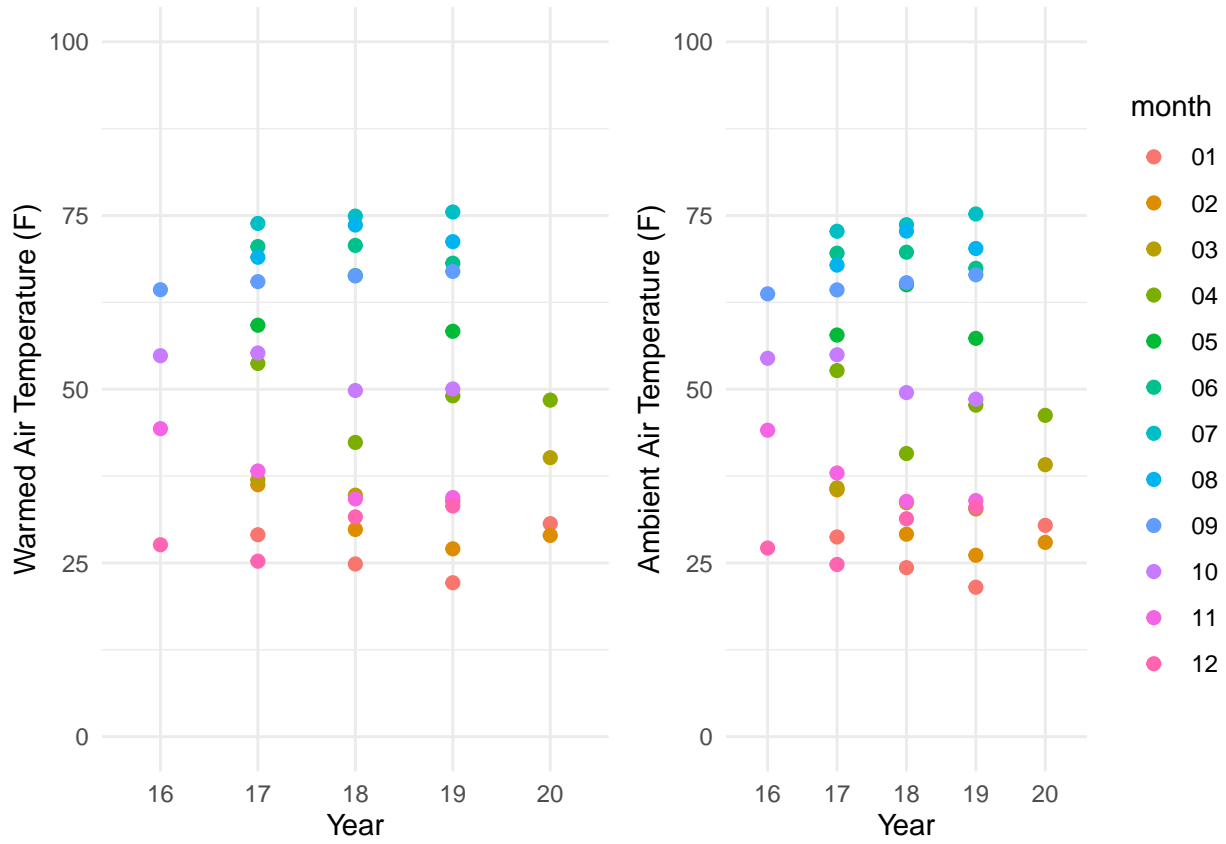

3H sensor

Year ● 16 ▲ 17 ■ 18 + 19 ⊠ 20 treatment ● XH_ambient_air_1m ● XH_warmed_

2. These plots also look at air temperatures for each month, each year, but only for the 1H sensor

3. This plot compares the warmed and ambient treatment groups' air temperatures for each month, each year for the 1H sensor
